

DSIT 100 – Extra Credit Options

1. Write ups for any professional events attended including writing about two professionals you met – 100 words about the event, 50 words about each professional – 1% for each event
2. Having 40 professional (fellow students count) contacts on Linked-in – 1%
3. Restroom survey, as in In-class Assignment 2 – 5% for restroom survey including full plan and all four elevations with all fixtures and accessories, dimensioned, with a list of things that are not code compliant, annotated.
4. Code analysis sheet for a project from another class, 10-15% depending on the size of the project and scope of analysis – at minimum, project info (occupancy, construction type, etc) and full occupant load and exiting analysis and accessibility plans and compliance for routes and facilities (including entrances, parking, ramps, stairs and restrooms). For additional points for entire buildings, analysis of building area and height compliance and list of required fire-resistance levels.
5. Final exam – you can use the grade on the final exam to replace any four grades of the previous exams, meaning this is potentially 20% of your final grade. Final exam is optional and will be held on Tuesday 12/13 at 6 PM.

All extra credit assignments are due on Tuesday 12/13 at 6 PM.
